

International admissions for Master's programmes

Academic year 2025-2026

let's change
YOU. US. THE WORLD.

The Hague University of Applied Sciences
Enrolment Centre

THE HAGUE **PRO**
UNIVERSITY OF
APPLIED SCIENCES

How to use this document

This document presents a list of sample entry requirements from various countries and educational systems. Please verify whether the diploma you have obtained is included. The table will specify which types of diplomas typically grant access to our master's programmes.

Please note that final admission decisions are made by the programme manager following an intake interview.

Are you eligible for ALL master's programmes if your diploma is at the right level?

If, according to the table below, your diploma grants access to our master's programmes, it indicates that your diploma is comparable to the corresponding Dutch entry requirement. However, this does not automatically qualify you for admission to every master's programme within that range. Each programme has its own specific requirements, including those related to work experience.

What if your qualification is not listed?

We recognize that there are numerous countries and qualifications that may not be included in this document. The list is based on the countries from which we receive a significant number of applications and includes common qualifications that we often encounter in students' admission files. If your country and/or diploma is not listed, you are always welcome to submit your application for enrolment via Studielink so that we can review your educational background.

How to apply

Be aware that we cannot make a statement by e-mail about your admissibility for the study programme of your choice. To assess your eligibility, we kindly ask you to first register online via [Studielink](#). This registration is free of charge and can be withdrawn at any time.

Please note:

You will see references to OSIRIS and Studielink.

[OSIRIS](#) is the student registration system used at The Hague University of Applied Sciences.

[Studielink](#) is the Netherlands' national registration system for higher education.

Once you have registered, you will receive a confirmation email and your login details for Osiris. Before you apply, it is important for you that you check whether you meet all the entry requirements and have the right qualifications – otherwise you won't be able to enroll.

Admission requirements

- ✓ Bachelor's degree and final transcript
- ✓ English language proficiency ([language requirements](#))
- ✓ Two years of relevant professional experience (three years for part-time MBA)
- ✓ Motivation statement
- ✓ Updated CV/Resume
- ✓ Mandatory intake interview
- ✓ Recommendation letter from your current (or previous) employer, which includes your name, date of birth, and a description of your tasks/responsibilities.

Disclaimer

This document serves as an informational tool to help you determine if a THUAS master's programme is the right fit for you. No rights may be derived from the information provided herein. To receive a formal decision regarding admission, you must always submit an application for enrolment.

International qualifications that provide access

To find out if you're eligible for your chosen programme, check the list below to see if your diploma qualifies for admission.

Make sure to register through Studielink for your selected programme before you can be considered for admission. Also, don't forget to check the specific requirements for your programme, including any [language requirements](#).

Country	Name of qualification
Afghanistan	Bachelor of Arts: لیسانس هنر Bachelor of Engineering: لیسانس مهندسی Bachelor of Science: لیسانس علوم Doctor of Veterinary Medicine: دکتور دواپزشکی Medical Doctor: دکتور پزشکی Master: ماستری
