Why do we need a digital euro? (1)

Replicate valuable features of cash:

- Fall back option
- Inclusion
- Privacy

Why do we need a digital euro (2)

Monetary sovereignty and strategic autonomy:

- Securing critical infrastructure
- Preserving the monetary anchor

EUROSYSTEEM

What are the impacts on commercial banks?

EUROSYSTEEM

Political support is needed

Always accepted

People would always be able to pay in digital euro with any euro area merchants accepting digital payments

00

Free for basic use

A digital euro would always be free for basic use to euro area citizens

Right to obtain digital euro

People would be able to obtain digital euro at the banks with which they already hold accounts

Digital financial inclusion

People from vulnerable social groups would receive support to access basic digital payment services

Fair economic incentives

Intermediaries would be compensated for distributing the digital euro, making it accessible across the euro area

High privacy standards

The ECB would ensure a high level of privacy, in line with European regulations

Progress of the ECB-project

Investigation phase Oct. 2021 – Oct. 2023

Concept, definition, technical exploration and design proposal **Preparation phase**

Nov. 2023 – Oct. 2025

Main foreseen activities:

- Finalising the scheme rulebook
- Selecting service providers
- Learning through
 experimentation
- Deeper dive into technical aspects such as offline functions and developing a testing and rollout plan for the future

Next phase $\frac{1}{2}$

Political support is needed
