When do you use which library tool?

Go to thuas.com/library

THE HAGUE UNIVERSITY OF APPLIED SCIENCES

TIP!
Amberscript can be used to transcribe interviews!

TIP!
Also set up Alerts to get a notification as soon as a publication you are interested in is cited!

TIP!
The A-Z LIST contains an informative description for each database. Use the filter options to navigate easily. Always access a database via this list for full access!

1. LISTS & GUIDES

- **1.1** *Do you want access to a certain database?*
- **1.2** *Do you want to know which databases are most relevant to your subject?*
- **1.3** *Are you looking for the full text of a specific e-journal or e-book?*

1.1 A-Z list digital sources
For students, lecturers and researchers.

1.2 Databases guide
For students.

1.3 E-Publication Finder
Browsing by topic is possible; browsing at article level is not. For students, lecturers and researchers.

2. SEARCH SYSTEMS

- **2.1** *Are you looking for literature on a specific subject?*
- **2.2** *Are you looking for physical books and journals?*
- **2.3** *Are you a researcher who writes literature reviews, needs to do citation analysis or is looking for the best journal to publish in?*

TIP!
Use GOOGLE SCHOLAR in combination with the tool Find it @ H/Library.

2.1 Google Scholar
For students, lecturers and researchers. Searching at article level is possible.

2.2 Catalogue
For students and teachers. Searching at article level is not possible.

2.3 Web of Science
For researchers. Searching at article level is possible.

TIP!
Use WEB OF SCIENCE in combination with the tool Find it @ H/Library.

TIP!
The CATALOGUE can also be used to find specifically (for study programmes) selected e-books and e-journals. The catalogue is also available as an App: H Library, for iOS and Android.

3. FULL TEXT

- **3.1** *Search for a full text in Google Scholar, Web of Science or other databases?*
- **3.2** *While searching the internet, do you want to go to the full text in the digital library in one click?*
- **3.3** *Do the search systems not yield the full text?*

3.1 Find it @ H/Library!
For students, lecturers and researchers.

3.2 Browsertools

Lean Library · EndNote Click · LibKey Nomad

For students, lecturers and researchers.

3.3 Interlibrary Loan (ILL)
For students, lecturers and researchers.

4. OTHER TOOLS

- **4.1** *Want to get automatic updates on literature that appears and meets your search conditions?*
- **4.2** *Want to periodically read international scientific literature or gain insight into the journals available by subject area?*
- **4.3** *Want to organise and save your references and prepare reference lists easily?*
- **4.4** *Looking for a way to analyse qualitative data?*
- **4.5** *Looking for a tool that converts speech to text?*

4.1 Alerts
For lecturers and researchers.

4.2 BrowZine
For lecturers and researchers.

4.3 RefWorks
For students, lecturers and researchers.

4.4 ATLAS.ti
For students, lecturers and researchers.

4.5 Amberscript
For researchers.

Different routes to the full text

In principle, you can use any tool whenever you want, but in specific cases when finding the full text, keeping to a certain order is helpful.
